

Christmas Tree Stands

We offer Christmas tree stands made by cut out of the metal sheet with Christmas decorative elements. Our Christmas tree stands are characterised by their high quality and originality.

Our company provides comprehensive services in the field of laser cutting, sheet metal bending, welding, drilling and threading. Although we are a young company, we have professional knowledge that we are constantly increasing. Our experience helps us solve even the most difficult problems we face in our work.

For product : Christmas Tree Sparkle Stand

Our sturdy Christmas Tree Stand is just the thing for keeping your beautifully decorated tree standing straight and true. Even while groaning under the weight of tinsel and baubles, you can be sure that your tree will remain standing straight and true. Up to the screws, the central pot of the stand is watertight, allowing you to fill it with water, and prevent your tree from drying out while indoors.

This tree stand helps you alleviate the drying out of your tree by allowing you to fill this stand with water. It is also equipped with 6 holding screws to keep the trunk securely and tightly held in place, ready for your decorations.

- Watertight - holds water in, allowing your Christmas tree to avoid drying out
- 6 holding screws - three screws ensure that your tree remains upright and held securely throughout
- Plastic coated steel - sturdy material sure to hold your tree up with ease.

- Design - Designs inspired by Christmas day, such as reindeer and snow. For colors, can be ordered according to customer satisfaction.
