Periodontal, Gum Disease Treatments in New York City

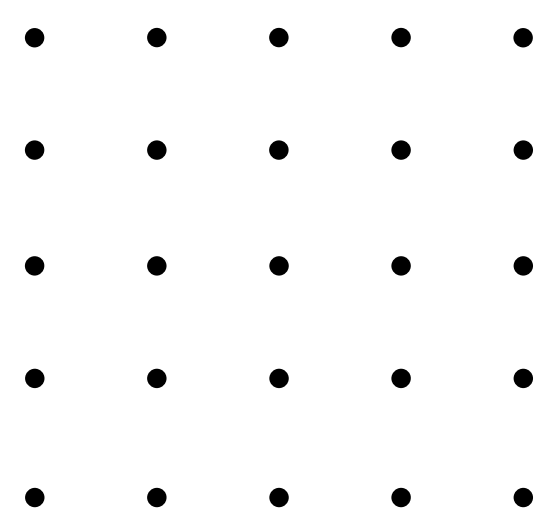

LASER GUM TREATMENT

SCALING AND PLANING

GUM GRAFTS

Bone graft

When bone and gum tissue have been destroyed, your periodontist may advise you to undergo guided tissue regeneration through the insertion of regenerative substances that encourage your body to naturally rebuild your gums. Alternatively, periodontist in New York Dr. Rahmani may do gum graft onto the exposed roots.

Dental implants

Dental implant procedures performed by the best rated periodontist in New York often prove to be the gold standard in tooth replacement. Manhattan Periodontics is proud to offer single or multiple implants through its Midtown Manhattan office.
