## our services

### captioning/transcription /subtitling

timecoding captions accurately and identifying background noise & music for an enhanced viewer experience.

### machine translation post-editing

carefully checking on the translated texts to make sure any jargons, terms or sayings did not get lost in translation.

### audio description

narrating the program in between dialogue so that the viewer can easily envision what is happening on the screen.

### redaction

scanning though the text and editing if needed to convey the source text's message successfully.

## Our Mission

Our goal is to provide you with direct translation of various documents and website translation accurately and timely.

## Our Vision

We let our experienced and competent translators take care of your translation works and undergo editorial check. In order to offer you -by all means- a trouble-free service.

## Who we are

We are a language center that individuals or institutions who want fast and reliable translation service can easily apply.
