ABOUT US

The ophthalmologists and retina specialists at Vitreous Retina Macula Consultants of New York are internationally known leaders in diagnosing and treating retinal diseases. VRMNY retina doctors have trained and taught at some of the world's finest and most respected academic institutions. The physicians who comprise the best retina specialists in New York are experts in vitrectomy surgery and hold academic appointments at Lenox Hill Hospital, New York University, and the New York Eye and Ear Infirmary.

With state-of-the-art New York ophthalmology centers in Manhattan, VRMNY is the largest retina vitreous center in the New York Metropolitan area. Our New York ophthalmologists and eye doctors publish more in the foremost peer-reviewed journals than any other private or academic group in the United States. The practice devotes its time and resources to research and developing new diagnostic and therapeutic strategies. Many current concepts in retinal disease and treatment recognized worldwide were invented at VRMNY.

WHAT SURGICAL PROCEDURES ARE AVAILABLE?

For complex eye conditions, surgery may be the best treatment. Your eye doctor opts for surgery if other treatments, including medications, don't work. The team at the VRMNY perform such surgeries as:

- Cataract surgery*
- LASIK eye surgery*
- Cornea transplant*
- Glaucoma surgery*
- Retinal detachment repairs
- Lensectomy
- Retinotomy and retinectomy
- Vitrectomy
- Scleral buckle
- Membrane peel
- Endolaser retinopexy/endoscopy
- Keratectomy
- Keratoplasty
- Punctal occlusion or punctal cautery
- Silicone oil
- Stye surgery

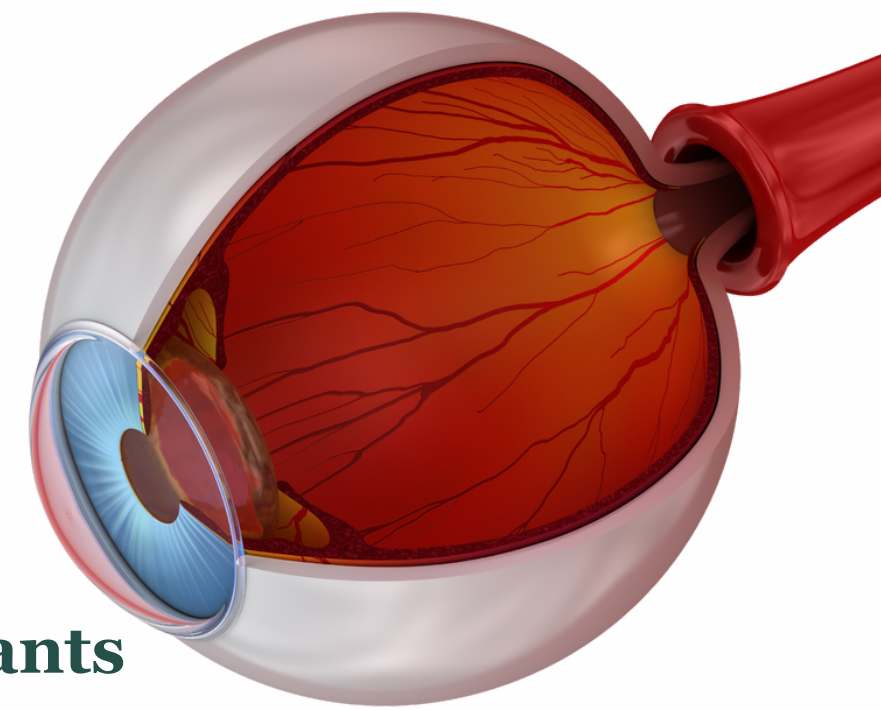

WHAT IS LASER SURGERY?

The laser is one of the most advanced technologies in eye treatment. During laser surgeries, your doctor precisely treats a targeted area. Laser surgeries offered at VRMNY include:

- Panretinal photocoagulation (PRP)
- Photodynamic therapy (PDT)
- YAG capsulotomy
- Iridotomy
- Cryotherapy
- Focal laser
- Prophylactic laser
- Indirect laser
