## POOL RENOVATION

Renovations of swimming pools can include new features to your current design. New pool design can include beautiful additions that will make it truly stand out. A waterfall can add a natural quality to the whole backyard. On the other hand, a fountain adds a stylish yet modern touch of prestige. By adding lighting the surface of the water gains a new beauty as light intersects with the waves. These water features come in a variety of styles and can turn your pool area into a true work of art.

Also, included in renovation works is the addition of structures that add practicality and utility to the pool area. By building them we extend the usefulness and beauty of the property in Broward and Palm beach county. They can be built to serve as a landscaping feature or perhaps a simple cover from the heat and sunshine. Another great feature could be a utility structure as a place for relaxation and rest.

## Why Choose Us?

### Worry Free Guarantee

Forget about fluctuating water chemistry. In fact, forget about buying and lugging chemicals, troubleshooting problems, remembering to latch the gate, whether its safe to swim, or if your filter's making a funny noise

### Priority Repair Advantage

When your pool filter breaks down in the middle of a heat wave, or your heater goes on the fritz in the middle of winter, it makes all the difference in the world to know you'll get help quickly.

### Total Clean Promise

"Spot Cleaning" is a dirty little practice some pool service companies use to reduce their prices. It involves picking and choosing what to clean based upon what you see. It ignores basic microbiology and flies in the face of proper pool care.
