Digital Animal weighing scales ZOO and Safari parks

We manufacture custom special animal scales for zoo's, animal hospitals and safari parks.

The customer determines the size of the platform and the weighing range.

The weight of the ZOO inhabitants plays such an important role. Regularly measuring the weight of the animals gives an indication of the health status of the animals.

The platform size and the weighing range can be specifically adapted to the animal. Depending on the location, the scale can be made of steel or stainless steel.

Large animal scales- Digital weighing balance

Weighing capacity 1500 kg, readability 1 kg, 4 integrated load cells K30S-C3-2000, construction hot-dip galvanized, except safety gear. platform size inside 2180 x 800 mm, outside 2500 x 1300 mm, cage height 1980 mm, passage height 1710 mm, passage width 700 mm.
