MODERN
AND CREATIVE
ITALIAN DESIGN
FRESH NEW IDEAS.

Excellent bathtub design.

MARCOONI COMPANY

For over 11 years, Marcooni, using the services of the best Italian designers, has been creating their products while remaining true to the philosophy of providing its clients with a modern design of the highest level of quality. This approach to the client and attention to each detail ensure that there is no equal company to Marcooni in the industry. Owing to their unique design, Marcooni's bathtubs have for years been ending up in many modern houses located both in Italy and throughout Europe.

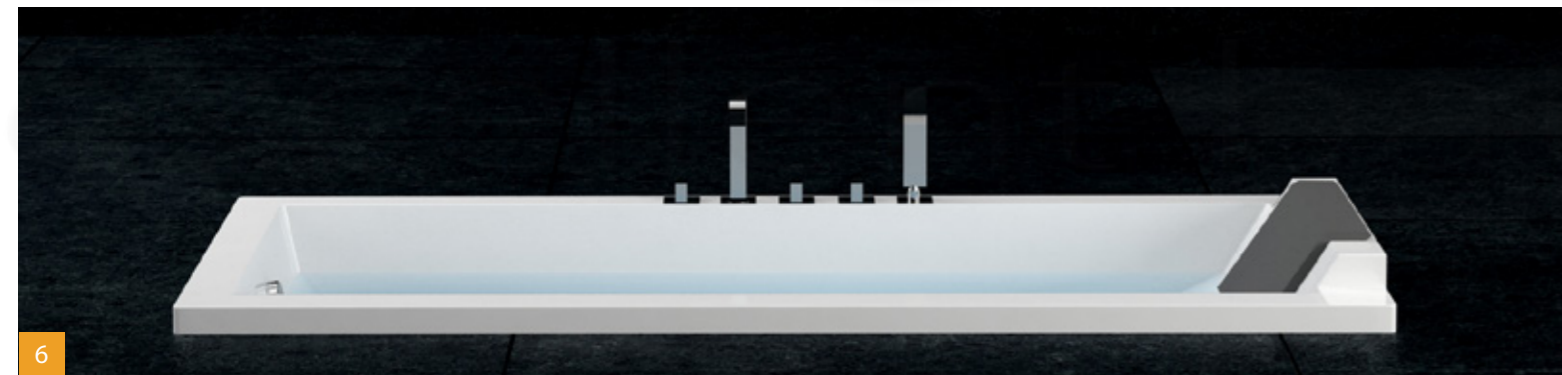

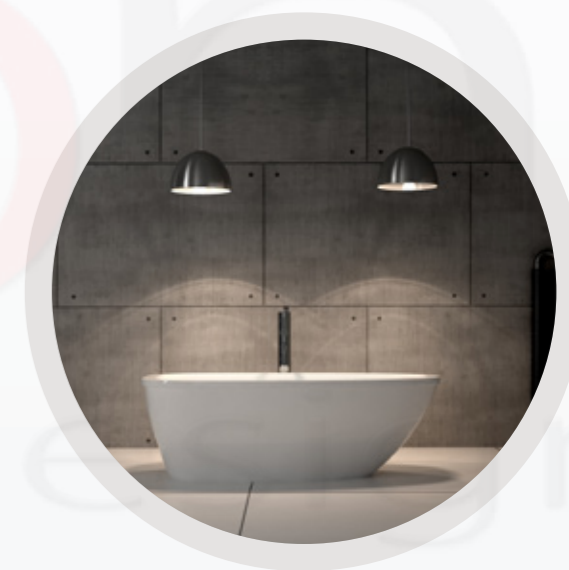

MARCOONI TODAY

The company Marcooni has in its offer over 120 models of bathtubs: ranging from modern to classic retro designs. For nearly 12 years Marcooni has been continuing the tradition of producing high-quality bathtubs in a modern style: they are functional, comfortable and simply beautiful.

Our company employs only top-class specialists and designers, who care about the quality and reliability of the manufactured products. All this in order to achieve the highest level of satisfaction of our future customers.

In order to meet the requirements of the market and demand, in 2006 Marcooni expanded its operations through opening another manufacturing facility located in the industrial heart of Guangdong Province in China.

The customer service department personnel at our company offer a 24/7 support and technical assistance.

MARCOONI QUALITY

The modern style and high quality of craftsmanship are the mottos of Marcooni. All of our bathtubs are finished with as many as four layers of top-quality acrylic! Additionally to acrylic materials such as resin, fiberglass, foams and wood are used in the production of bathtubs. All this results in Marcooni bathtubs being characterized by a very high durability and the highest possible scratch and abrasion resistance. Moreover, our free-standing bathtubs are supported by an adjustable frame structure made of stainless steel with adjustable levelling. We are in a position to guarantee that our bathtubs will serve you for years to come.

You can trust us.

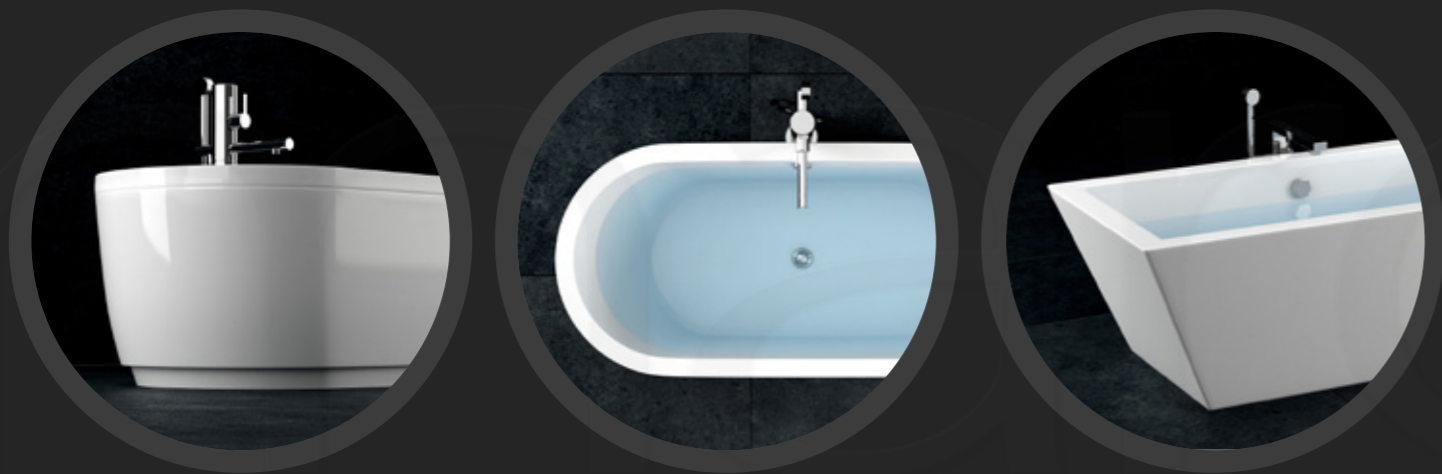

FREESTANDING BATHTUBS

Excellent bathtub design.

MARCOONI
THE NAME **THAT MEANS QUALITY.**

htub design

Freestanding bathtub **VSA-01A**

The luxurious MARCOONI tub line, made of sanitary grade acrylic, are setting new standards of convenience and design. Acrylic bathtubs are colorfast and the color is never painted onto the surface of the tub. The tubs are constructed of colored acrylic sheets. The finish of acrylic bathtubs is also protected against damage from most household cleaners and chemicals. However, there are some chemicals that will damage the surface such as acetones, and paint removers or thinners. Also, acrylic tubs can be repaired very easily.

MARCOONI SERVICE

Limited warranty /01

Your new acrylic bathtub is covered by a manufacturer's warranty of Marconi. The warranty is granted for a period of 10 years from the date of purchase and is subject to certain standard conditions. Our international warranty covers the material and manufacturing defects existing upon delivery of the purchased goods. The warranty is valid only and exclusively if the warranty card has been

dated, correctly completed and stamped by an official dealer of Marconi.

The warranty does not cover normal wear and tear and aging of the product (e.g. scratches of the acrylic layer or its discolouration resulting from use of improper care products), as well as damage resulting from incorrect use or installation of the bathtub.

MARCOONI SERVICE

How to care /02

The surface of our bathtubs is achieved thanks to acrylic. It is the highest quality and most durable of materials available. It gives a hard, non-porous surface preventing accumulation of dirt. It also has a far higher resistance to staining than other plastics. Under normal use acrylic is such a durable material that with minimum care it will maintain its beauty for years to come. In order to maintain the sleek look of acrylic it should be necessary to follow a few easy steps only.

For normal care and cleaning a soft cloth or sponge with water and soap should be used. Then the bathtub should be thoroughly flushed with water and wiped dry with a soft, dry cloth. If you are using cleaning products, please verify whether they are recommended for use on acrylic by the manufacturer, otherwise you may damage your acrylic layer!

- Remove dust and dirt with a dry, soft, clean and damp cloth.
- Clean off (rub off) grease, oil, paint and ink stains with isopropyl alcohol. Then, flush it well with water and dry with a clean, soft cloth.
- Do not use harsh cleaning products.
- Do not allow your acrylic surface to come to contact with nail varnish, nail varnish remover, varnish, thinner, white spirit, etc.
- Avoid placing razor blades or other sharp tools on the surface of acrylic, since it can get scratched. Small scratches on the acrylic arisen during use can be removed by gently polishing the surface with a clean, soft fabric cloth with the addition of a dedicated polishing paste.
- In order to maintain the smoothness of the acrylic we recommend waxing the surface once a year.
