**Use Spice Android Phone to send Group SMS
using DRPU Bulk SMS Software**

DRPU Bulk SMS Software enables you to send plain text message to your friends, colleges and Business clients. Software provides options to send text message to your entire contact list simultaneously with delay delivery feature for smooth messaging service. Software allows you to add your contact number list by importing contact list directly from your mobile phone or from your Excel file from your computer. Software allows broadcasting product promotional text messages to your customers simply by messaging them.
